Instructions

punch fountain

NOTE: Please use a pulp-free beverage, so that the fountain does not clog. Do not use eggnog, fruit slices, etc.

- Cool beverage before filling. When the fountain is running, the pump will slightly warm the liquid over time so additionally we recommend freezing an ice ring or juice cubes to keep the beverage cold.
- Fill the fountain with 5 gallons of beverage.

Important note: Please refill fountain often, do not let the fountain run dry.

- Plug the machine into an outlet to start the pump.

Note: Operating capacity may fall if the fountain is not used on a separate outlet.

WARNING: DO NOT immerse the base of the fountain in water.
